CONTENTS

Effects of Liposomes on Permeability of Various Compounds through Rabbit Corneas. *K. Morimoto, T. Nakamura, T. Nakai and K. Morisaka* 7

Effects of Streptozotocin-Induced Diabetes on Drug Metabolism in Rats. *T. S. Emudianughe, B. Kalderon, A. Gopher and A. Lapidot* 14

Food Deprivation and Methadone Effects on Fixed-Interval Performance by Pigeons. *T. H. Kelly and T. Thompson* 20

Pharmacological Profile of N,N Dipropyl-8-Hydroxy-3-Chromanamine, an Oxygen Isostere of the Dopamine Agonist N,N Dipropyl-5-Hydroxy-2-Aminotetralin with Enhanced Presynaptic Selectivity. *N. A. Vermue, B. Kaptein, P. G. Tepper, J. B. de Vries and A. S. Horn* 37

Pharmacological Activity of Novel Alkylsulfonylaryl-1-Substituted-1,4-Benzodiazepine Derivatives. *C. Pérez, N. Mondelo, F. J. Stéfano and J. Lores Arnaiz* 57

Cardiac Effects of Botulinal Toxin. *C. Lamanna, A. N. El-Hage and J. A. Vick* . . . 69

Electrical and Mechanical Actions of Magnesium Sulfate during Ischemia and Reperfusion on Isolated Perfused Rat Heart. *N. Ferrara, G. Longobardi, P. Abete, D. Leosco, G. Monaco, P. Caccese, D. Vitale, B. Tuccillo and F. Rengo* 84

Frequency- and Time-Dependent Depression of Ventricular Distal Conduction by Two Novel Antiarrhythmic Drugs, Cibenzoline and Flecainide. *J. Lang, Q. Timour, J. F. Aupetit, J. P. Lancon, M. Lakhal and G. Faucon* 97

Dopamine-Induced Coronary Effects in the Dog Heart Attributed to β- and α-Adrenergic Mechanisms. *G. Rabloczky, V. Kékesi, M. R. Mader and A. Juhász-Nagy* 109

Comparative Effects of Acetylcholine on the Reptilian and Mammalian Aortae. *O. A. T. Ogundahunsi and F. M. Tayo* 127

Comparative Effects of Verapamil, Diltiazem and Nifedipine on Aortic Compliance in Anesthetized Dogs. *R. W. Watkins, E. J. Sybertz, K. Pula and A. Antonellis* . . . 134

The Influence of Atropine on the Cardiopulmonary Effects of a Xylazine-Ketamine Combination in Dogs. *K. E. Magoon, W. H. Hsu and F. B. Hembrough* 143

Methylprednisolone-Induced Vasodilatation in the Isolated Hind Limb of Dogs Before and After Adrenoceptor Blockade. *J. B. Williams, J. K. Pruett and P. S. Mote* . . 154

Effect of SM-2470, a Newly Synthetized α_1-Adrenoceptor Antagonist, on Sympathetic Nerve Activity in Anesthetized Rats. *M. Yoshioka, M. Matsumoto, H. Togashi, M. Abe, T. Ikeda, K. Morii, M. Minami and H. Saito* 162

Comparison of Bovine Platelet and Teat α_2-Adrenoceptor Characteristics by [^{3}H]Rauwolscine Binding. *E. Roets, C. Burvenich and G. Peeters* 175

Comparison of the Response to Angiotensin II of Isolated Dog Coronary and Mesenteric Arteries of Proximal and Distal Portions. *Y. Minami and N. Toda* 186

Influences of Sodium on the Contractile Action of Vanadate in Depolarized Vas Deferens and Ureter of the Guinea-Pig. *S. Sunano, S. Kato, K. Moriyama and K. Shimamura* 196

Effects of Muscarinic Pharmacophores on the Cholinergic Regulation of Catecholamine Secretion from Perfused Adrenal Glands. *Y. Nakazato, M. A. Oleshansky and P. K. Chiang* 209

Facilitatory Action of Adrenergic Drugs on Muscle Twitch Evoked by Nerve Stimulation in the Curarized Rat Phrenic Hemidiaphragm. *J. Baños, A. Badia and F. Janè* 219

Interaction of 2,4-Diaminopyridine with Cholinesterase Inhibitors. *P. T. M. Biessels, M. C. Houwertjes, S. Agoston and A. S. Horn* 228

Inhibition via Muscarinic M-1 Receptor Stimulation of TRH-Induced Prolactin Release in Estrogen-Primed Rats. *M. Kumagai, K. Yamada, N. Matsuo and T. Furukawa* 236

Role of Cyclic AMP in Rat Uterine Inhibitory Response to Salbutamol during the Natural Oestrous Cycle. *S. E. Ohia and F. C. Boyle* 245

The Protective Effect of Glucose, but not 3-O-Methyl Glucose, against Alloxan-Induced Diabetes Depends upon the Route of Hexose Administration. *L. Jansson and S. Sandler* 257

ACTH-(1–24) Antagonizes the Cholestatic and Constipating Effects of Morphine. *R. Poggioli, R. Arletti, A. V. Vergoni, M. Castelli and A. Bertolini* 265

Effect of Agents that Alter Cell Calcium and Microfilaments on CO_2 Stimulated H^+ Secretion in the Turtle Bladder. *J. A. L. Arruda, Z. Taylor and C. Dytko* 273

Effect of Anthracene-9-carboxylic Acid on the Real Function of the Unanesthetized Rabbit. *A. Villegas-Navarro and J. L. Reyes* 284

Biopharmaceutical Aspects of Ritodrine Retard in Pregnant Women. *G. G. M. Essed, H. A. J. Struyker Boudier and J. A. W. M. Van Zijl* 295

Belgian Society for Fundamental and Clinical Physiology and Pharmacology . . . 301
